NARVA®

NEW PRODUCT RELEASE
'Colt 1000' L.E.D Handheld Spotlight

Narva 'Colt 1000' L.E.D Handheld Spotlight

P/No. 71000 & 71001

Narva are pleased to introduce the Narva 'Colt 1000', a new handheld high-powered L.E.D spotlight.

The 'Colt 1000' is the spiritual successor to the Narva 'Colt 100' handheld halogen spotlight. The new 'Colt' features six (6) high powered L.E.D's providing a crisp spot beam range of up to 285 metres. The Narva 'Colt 1000' is protected by a heavy-duty casing making it fully sealed and waterproof (IP66 rated) (P/No. 71000 only).

The growing desire for compact and portable equipment has meant that the Narva 'Colt 1000' now comes in a corded (P/No.71001 – includes 12/24V Accessory Plug) and rechargeable battery (P/No. 71000 with an included 7.4V Lithium battery) variants.

The Narva 'Colt 1000' serves as a powerful yet compact spotlight – being specifically designed and tested for Aussie conditions has ensured the coil corded and battery powered variations have maintained a tough lightweight build and portable nature without compromising the L.E.Ds performance output. The Narva 'Colt 1000' is the perfect spotlight for hunters, fishers, campers, security and emergency services.

P/No. 71000

P/No. 71001
