

**'HALO' WARNING LIGHTS**

P/No. 85220AA

P/No. 85220AR

P/No. 85220AW

P/No. 85220-WB

P/No. 85220-CB

With the continued development of the Narva warning light range comes a truly new and unique range of self-contained warning lights. The 'Halo' range of warning lights has been designed with two key components, an eye-catching Class 1 SAE approved amber warning light function and a marker light which is ADR approved.

The 'Halo' range comes available in front, side and rear markers which suit a wide range of vehicles and applications. The sleek finish and customisable bezel options allow the warning lights to seamlessly camouflage into the vehicles body shape, especially when not activated. The reliable aluminium base provides efficient heat dissipation, maximum durability and longer product life.

The new 'Halo' Warning Lights allow multi-unit synchronization in simultaneous or alternating flash and are fully weatherproof (IP65) with a vibration resistant design providing reliability for a wide range of light commercial, commercial construction and industrial applications.

**Features:**

- 6 x High power amber L.E.D warning light function
- 12/24V multi voltage
- SAE Class 1 approved warning light
- ADR approved for front (85220AW), side (85220AA) and rear (85220AR) marker lamps
- Multi-unit synchronisation flash options
- Slim 19mm high design
- White and chrome bezels available
- 1.35A peak current draw at 12 volts
