Wireless Chargers

NEW PRODUCT RELEASE

Wireless Charging - How it works

Wireless charging allows you to charge a compatible device (like your smartphone) without plugging your device into a power cable. In order to charge something wirelessly, you need to have two components called induction coils. These coils are loops of wire that are built into wireless charging stations and compatible phones.

When a compatible device is placed on a charging station, the two coils are able to act as a transformer. When

an electromagnetic field is generated by the charging station, it creates an electrical current in the coil that is located in the device. That current flows into the battery.

83% of Australians own a smartphone. This will continue to increase as consumers upgrade their phone and new models come out.

Wireless Charging Compatible Devices:

- Apple iPhone: 8, 8 Plus, X, XR, XS, XS MAX, 11, 11 Pro, 11 Pro Max
- Samsung Galaxy: Note 9, S9, S9+, Note 8, S8, S8+, S7, S7 Edge (Plus more devices)
- Sony: Xperia XZ3, Xperia XZ2 Premium, Xperia XZ2 (Plus more devices)
- LG: G7 ThinQ, G4, (Plus more devices)
- Nokia: 8 Sirocco
- Huawei: Mate series (Plus more devices)
- Microsoft Lumia: 1520, 1020, 930, 929, 928, 920
- Google Nexus: 4, 5, 6, 7 (2013) Pixel series
- BlackBerry: Priv (Plus more devices)

NEW PRODUCT RELEASE

Wireless Phone Charging Mat

P/No. 81120BL

This silicone moulded wireless charger incorporates 3 in-built coils, offering a much wider charging area to make correct phone position easier. Anti-slip texture and raised edges make this phone mat great for in car, home or office use. Easy to put down and pick up. Compatible with any Qi enabled phone model. Includes 1m USB cable

Input voltage: 5V/2.5A

Output voltage/current: 5V-1A

Charging distance: 8mm

Dimensions: 183mm x 103mm x 15mm

Coil: Three coil

Wireless Phone Charging Cup

P/No. 81121BL

Mounts in the car's cup holder to hold and charge Qi compatible phones while you drive. Phone slot designed to fit phones up to 6.5" in screen size. Includes USB and USB Type-C slot to charge other devices. Fast charging capability. Includes 1m USB cable

Input voltage: 12V/5A

Output voltage/current: 5V/2A (MAX)

Type-C output: 5V/2A (MAX)

Wireless Charging Air Vent Phone Holder

P/No. 81122BL

The air vent mounting and gravity lock system securely holds your phone and charges it while you drive. Ideal for charging your device while you use it for maps, hands free calling or messaging without touching your phone. To remove from holder simply lift the phone up. Includes 1m USB cable

Input voltage: 5V/2.5A

Output voltage/current: DC 5V/2A

Charging distance: 8mm

Size compatible phones: 4-6.5 inches

NEW PRODUCT RELEASE

Wireless Charging Magnetic Phone Holder

P/No. 81123BL

Designed to mount to a vehicle's air vent or with 3M tape. Utilising a magnetic face, simply stick the metal ring between the phone and protective cover or stick the magnetic ring to your phone to enable the magnet to securely hold your phone and charge it while you drive. Includes 1m USB cable

Input voltage: 5V/1.5A

Output voltage/current: 5V-1.0A (Max)

Charging distance: 4-10mm

Wireless Charging Suction Mount Phone Holder

P/No. 81124BL

Securely holds your phone in the 2 pinch tabs either side of the phone. Mount the charger using the suction cup directly to the window, and easily remove by pressing the quick release function on the base of the holder. Includes 1m USB cable

Input voltage: 5V/2A

Output voltage/current: 5V-1A, 9V-1.1A

Charging distance: 1-10mm
